The President, Anne-Marie Maison, was re-elected. The missions and work groups reunited during the year share the emotion that reigns in the movement to live the Gospel daily, with efficiency and joy.

"A year marked by innovation, wealth and dynamism" The number of initiatives started during the year was highlighted, which illustrates the capacity of the movement to be permanently renovated, at its highest value.

With the theme of the year 2024-2025 on which the members of the movement will work **"When the world expands"**, Father René Aucourt, national chaplain, invites them to reread the Word of God which will always enlighten them and give them new strength. They will thus be able to invent, together, their place in the expanding world.
